

How To Change Location Settings

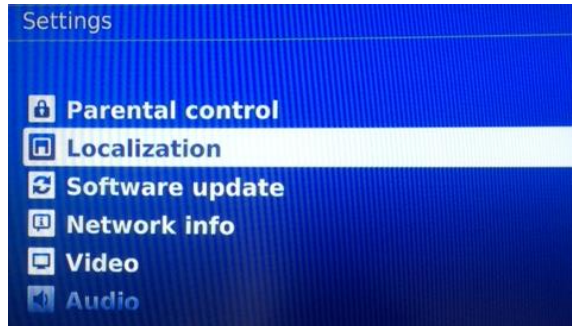

The Remote

From the Home Screen (below) press the RIGHT ARROW key until you reach “Settings”

Next go to "Localization" and using your Arrow Keys (up and down moves to the different fields, left and right changes the options) Change the Country, City and Time Zone then Press the down arrow until OK is highlighted then press OK.

Back in the Settings Screen, move down to "Servers"

Need to change the NTP Server setting to: **es.pool.ntp.org**

"es" is for Spain. You can change to another country code if you are located elsewhere. To find out your code, contact us.

First, use the left arrow key to move the flashing cursor to the "s" and then use the "BACK BUTTON" key on the remote to delete the "es"

Now press the KEYBOARD BUTTON on the remote.

Use your arrow keys to move over the "U" on the keyboard. Then press Ok. Do the same with the "K".

Press the KEYBOARD BUTTON again and the keyboard will disappear.

Then press your down arrow once, and press OK.

Once back in the list of Settings, press the "HOME BUTTON" and it will tell you your settings have changed and it needs to Re-boot. Press OK.

The box will re-start and the box should now be set up for either Spain or the United Kingdom.

Don't forget, if you have any queries, send an email to support@completv.com.
