Start the app and when you see **Loading Portal**, enter this code via the TV Remote on your TV, click here for instructions.

Additional Required Information

Software ID	
-------------	--

You will see a 10 digit Activation Code. Make a note of it and keep it close by!

On your TV, open the Smart STB App. When you see “loading portal” on the screen start entering the 10 digit code on your TV remote control. After a few digits a new screen will appear where you will see a box – carry on entering the digits of the code. Once completed, go back to the webpage and you will see the software ID field has been completed.

If when you entered the digits, it completed loading and went into TV Demo mode then you missed it and you will need to repeat the above step.

Back to the website, put in this URL: <http://ctvtv2.xyz> and enter... it won't like it. Simply re-enter it. Then click on continue.

The next page is easy. The contact info screen. Complete it and the rest of the process. Check out and you will receive an email confirmation.

Restart the app on your TV!
